

Dear Prospective Myers Park Families:

Welcome to Myers Park High School and as principal, I wanted to personally reach out to you and let you know how excited we are that you are visiting our school. At Myers Park High School, we are committed to the theme “**The Park: Make It Your Own**”, and specifically we will focus on high achievement for all students while cultivating a sense of family. We want our students to graduate with a meaningful diploma; ready to embrace the next level of college, the military or a career.

Myers Park High School is one of the few schools within the Charlotte Mecklenburg School system which truly represents the diversity of the Charlotte community. The natural make up of the student body gives students an advantage of experience as the university campuses and work places of the 21st century require students to work and compete in collaborative teams. To effectively work together, students must have a global awareness, and understand and know how to work with teammates with different cultural understandings and values. With a student body representing over 32 different nationalities and 28 languages, a simple school day provides this real world experience.

To meet the needs of all of our students, we strive to offer coursework ranging from Advanced Placement and International Baccalaureate to Junior Reserve Officer Training Corps and Career and Technical Education. Within these extensive offerings we expect high academic achievement for all students. Accordingly, we offer a variety of courses designed to challenge and prepare students for the future they choose.

While Myers Park is one of the largest high schools in the state, we are working to make large feel small through “cultivating a sense of family”. With a focus on customer service, open communication, fostering relationships and rapport while using Jim Fay’s Teaching with Love and Logic, we are creating a level of care for your student. This approach is designed to support your student while they reach and grow into empowered young adults.

As you tour campus, please note that we have opened two new buildings - Language Arts (LA) building with 40 classrooms and a media center, and our Science, Engineering and Technology (SET) building with new 24 classrooms, lab space and a culinary arts facility.

Lastly, open communication is imperative between the home and school and I encourage you to reach out to me, or other school/PTSO staff, with any questions you may have. I look forward to partnering with you and your student.

Sincerely,

Mark Bosco
Principal
Myers Park High School
